

Family Engagement

Trip to the Pumpkin Patch

Each October we set up a family trip to the Pumpkin Patch. We call ahead and “reserve” a time for our families to ride the wagon together. The owners usually give us a group rate for the ride, the pumpkin and the corn maze. This is something we have done for 5 years now, and the families really enjoy getting to do something with other families and getting their pumpkins too!

Each September we celebrate Apples by having an “Apple Day”. Parents and grandparents come in and “run” the centers for the children. The teachers split their children into smaller groups and they visit each of the centers. Centers have included: apple painting with apples (pictured), juice/cider tasting and graphing (pictured), making a tree from our hands, making Johnny Appleseed, apple tasting, making apple sauce, measuring our bodies to see how many apples tall we are and many other activities that have to do apples.

Apple Day!
