## Transportation for Medical Assistance, Older Adults and Persons with Disabilities Listening Sessions

### Overview:

✚ Transportation for Medical Assistance, Older Adults and Persons with Disabilities is supported by state funding. More and more people depend on state-funded transportation, especially door-to-door van service. In order to continue this service, the Pennsylvania Departments of Aging, Public Welfare and Transportation are considering changing from the single county transportation services to multi-county transportation. Your input is critical to ensure that your needs and concerns are understood and taken into consideration.

### Service Delivery Goals:

- ✚ Increase service efficiency
- ✚ Improve customer service

### Listening Sessions:

Listening sessions are scheduled to share more information and to hear your questions and comments. We hope you can attend. Here are some things we would like to know:

- What is your current experience with transportation?
- What services are important to you?

For a schedule of **listening sessions**, please see the reverse side.
