Employment Transportation Assistance Program

The **Employment Transportation Assistance Program** helps individuals in overcoming transportation barriers, allowing them to successfully obtain and retain employment and develop the capacity to earn a life-sustaining income.

The program utilizes already existing coordination structures including River Valley Transit (RVT), STEP's Shared-Ride, Billtown Cab, and Lock Haven Taxi to provide the most cost-effective means of transportation assistance. Transitional transportation assistance is available through bus passes, shared-ride transportation, mileage reimbursement, and for child care transportation.

Participants may receive benefits for a maximum of one year, with a maximum lifetime allowance of \$5,000. Assistance is provided on a gradually declining basis as participants achieve longevity in their employment and have the opportunity to develop self-sufficient means of transportation.
